## **Introduction:**

One of the biggest challenges about enrolling in college is the transition from high school. When a new group of students enrolls in an university, they bring with them a diverse set of ideas, perspectives, and expectations. Many of them have never been to or even heard of a college until they started classes there. Thus, orienting and preparing newcomers is essential task in the field of higher education.

The aim of the Student Induction Programme is to help new students adjust to and feel comfortable in their new environment, inculcate in them the institution's ethos and culture, assist them in forming relationships with other students and faculty, and expose them to a sense of a greater purpose and self-exploration.

Therefore S.M.Patel College of Home Science organized a week induction programme from 18<sup>th</sup> to 23<sup>rd</sup> July,2022 for the first year students under the guidance of the Principal Dr.Bhavana Chauhan and with the support of IQAC, organized by the vice president of student council Dr.Minal Chauhan.

The schedule for the student induction programme is as follows:
