

A CAMP FOR HAEMOGLOBIN TESTING & IRON TABLETS DISTRIBUTION

Iron deficiency anemia (IDA) constitutes the major anemia during adolescent period. Accelerated development, hormonal changes, malnutrition and starting of menstrual periods in girls are major causes in this period. Anemia in the adolescence causes reduced physical and mental capacity and diminished concentration in work and educational performance, and also poses a major threat to future safe motherhood in girls. With the aim to assess prevalence of anaemia in the school going girls, the Internal Quality Assurance Cell of the college had organized a camp for young adolescent girls where the haemoglobin of the girls were checked and the iron tablets were distributed among them.

The program was organized on 21 September 2023 as a part of 'Sewa Pakhwadiya' in collaboration with Mahila Morcha of Anand. 71 students from Higher Secondary Vocational Stream of Home Science were tested during the camp. 20 students who were found with less than 10 gm% of Hb, were provided with 90 tablets – 3 months course and were counselled for dietary improvement also. The Principal of the college Dr. Bhavana Chauhan, IQAC coordinator Ms. Kalpana Srivastava, Co-coordinator Ms. Vijaya Agarwal, Ms. Asha Patel, Principal of the Higher Secondary School, President and secretary of Mahila Morcha and their workers had attended the program.
