## Helping Hand Child Development and Assessment Centre -Vidyanagar

On 30/1/2025, the students of Human Development Development visited the Helping Hand Institute of Dr. Vandana Modi under the guidance I/C Head Dr. Mittal Barot. We reached there at 3 o'clock. We first met Nishit Batt sir there. They run that organization. He first talked to us about disability. They informed us about the organization. After this we went for a visit.

First we went to the speech therapy room. We met Dr. Padma there. She was giving speech therapy to a girl there using flashcards. Due to corona children use phone more, physical activity of children is reduced and they only use phone so their physical social development and speech development cannot be done. Due to which disability called ESB is seen in children.

After this we went to the special education room where we saw a ADHD and autism child. There was a child who had echo lolia. There the madam used to hold the child's hand and write on the board. Their hand and eye coordination.

After this we went to the occupational therapy room. Where the sensory session was going on. In which the madam gives the child different textures in his arms, legs and back so that he can get senses. There sir showed us different kits including a whistle kit for language development by blowing which the child can learn different words.
